

## Iowa Strategic Goals Program Workshop

# “RCRA Simplified: Top 10 Violations and Other Common Slip-Ups” & “Business Assistance for All Things *Waste*”

Regulations. By law you are required to comply. However, compliance requirements can often seem overwhelming and confusing, and rule changes can catch you completely off guard and leave your head spinning.

Wouldn't it be nice if regulators would provide hints and tips to help you better understand what is required of your business? Would you like the opportunity to meet with regulators and industry experts in a small setting where questions are welcome? This workshop provides just that opportunity.

**Join us** at the Iowa Strategic Goals Program 1-day workshop on November 10, 2015! In the morning, attendees will hear from an EPA Region 7 enforcement officer about common Resource Conservation & Recovery Act (RCRA) violations and how to avoid them. In the afternoon we'll hear from several state programs that can provide financial and technical assistance to businesses trying to reduce their hazardous, special or solid waste generation. These programs have helped Iowa businesses save money, and reduce their waste generation and impacts on the environment.

These sessions will provide plenty of time for open discussion / Q&A, so take advantage of this opportunity to learn, network and share ideas!

This workshop is the 18th in a series offered by the Iowa Strategic Goals Program. Open to all Iowa manufacturers, the materials presented will apply to a broad range of industrial sectors. The following comments were received from previous workshops:

- “Good information presented – relevant to all types of industries.”
- “Very good class, good information, timely topics.”
- “Speakers were very well educated in topics discussed.”
- “I think this is a great forum to allow businesses to get good compliance information with the regulatory agencies.”

*Sponsored by the Iowa Strategic Goals Program in partnership with U.S. Environmental Protection Agency's Region 7, the Iowa Department of Natural Resources and the Iowa Waste Reduction Center.*
